

ABOUT INDUSTRY

The Indian Paper Industry is the 15th largest paper industry in the world and fastest growing market. It provides Employment to 6 million people directly & indirectly, INR 50,000 million of foreign exchange.

The per capita paper consumption in India at a little over 13 kg, is way behind the global average of 57 kg. India's demand for paper is expected to rise 53% in the next five years. Future looks more promising as the domestic demand is on the rise.

The focus of paper industry is now shifting towards more eco-friendly products and technology. Moreover, the paper industry in India is not into Mining, just cultivation of trees and No use of the reserved forest. The paper industry seeks to maintain and grow its economic contribution to society, foster the well-being of our communities, and utilize sustainable manufacturing practices and fiber procurement measures that protect the environment and ensure that our resources will be as available for future generations as they are today.

Due to growth in literacy, change in lifestyle and increasing consciousness for personal hygiene, per capita consumption of paper and tissue in India is increasing day by day. The growth in GDP of India has led to the increase in manufacturing activities, increasing the demand for paper products especially the paper boards for carrying out wide range of activities ranging from packaging to storage, transportation and lot more.
