Post Show Report

I am pleased to know that Hyve India in association with World Paper Forum is organizing Paperex, the 16th edition of International Exhibition & Conference during December 6-9, 2023 at India Expo Centre, Greater Noida, Delhi - NCR, India.

I congratulate the organisers of Paperex and wish the participants, delegates, supporting associations and organizers fruitful deliberations.

Shri Ramesh Bais
Hon'ble Governor of Maharashtra

I am happy to know that Hyve India Private Limited in association with World Paper Forum is organizing the 15th edition of Paperex 2022, the International Exhibition & Conference from 10th to 13th May, 2022 at India Expo Centre, Greater Noida, Delhi- NCR.

It is commendable that a Souvenir, will be published in connection with the exhibition to mark the occasion.

I compliment everyone behind this endeavour and wish the exhibition as well as the publication all success.

Shri Bhupendra Patel
Hon'ble Chief Minister, Govt. of Gujarat

I am pleased to know that Hyve India is organizing Paperex 2022, the 15th edition of International Exhibition and Conference of the Pulp and Paper industry being held at India Expo Centre, Greater Noida, Delhi-NCR, India on May 10-13, 2022.

I understand that Paperex is a leading trade event and I am sure it will provide a business platform for the industry professionals and serve the needs of the Indian paper Industry,

I congratulate the organizers and wish the participants, delegates and supporting associations successful Exhibition and Conference.

Shri Pinarayi Vijayan
Hon'ble Chief Minister, Govt. of Kerala

I am extremely happy to know that Hyve India in association with IARPMA and various trade associations is organizing Paperex, the 16th edition of international exhibition & conference on paper industry during December 6-9, 2023 at India Expo Centre, Greater Noida, Delhi-NCR, India.

This exhibition has come back with an even bigger edition to cater Pulp, Paper & Allied Industries. Industry professionals and academics can come together to share their technical know-how.

This leading show has always been a gratifying experience in terms of organization, participation, and generation of new business opportunities in the field of Paper, Pulp and allied industries. All the best to the organizers of the show.

Shri Arvind Kejriwal

Hon'ble Chief Minister, Govt of National Capital Territory Of Delhi

I am delighted to learn that Hyve India Pvt. Ltd. is organizing the 16* edition of the World's Largest Paper Show - Paperex 2023 from 6" to 9 December, 2023 at Delhi.

The paper industry is a crucial sector that plays a pivotal role in our nation's economic landscape, contributing to employment and sustainable development. The efforts of Hyve India Pvt Ltd in association with Indian Agro & Recycled Paper Mills Association (IARPMA) and World Paper Forum in organizing such an extensive exhibition underscores the industry's commitment to innovation and growth.

Under the dynamic leadership of Hon'ble Prime Minister Shri Narendra Modi ji, our nation has witnessed transformative changes across various sectors. Paperex 2023 is a testament to the industry's resilience and adaptability, aligning with his vision of a progressive and self-reliant India. This show will not only serve as a platform for industry stakeholders to discuss latest developments but will also foster greater collaboration and knowledge exchange.

would like to congratulate all the stakeholders for undertaking this initiative and wish the show a grand success. Piyush Goyal

Shri Piyush Goyal

Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution, Textiles, and Leader of the House, Govt. of India

“Paper Industry–Growth & Sustainability Through Green Technologies

34+ Key industry
speakers & thought leaders

7+ sessions focused on the most
relevant & ongoing industry challenges

412+ Attending Delegates

Paperex'2023, the 16th edition of the International Technical Conference on Pulp, Paper, and Allied Industries, with the theme “Paper Industry: Growth and Sustainability Through Green Technologies,” has been held from December 6–9, 2023, at the India Expo Centre, Greater Noida, Delhi, NCR. A galaxy of internationally reputed scientists, scholars, researchers, technocrats, academicians, and technology suppliers made presentations on various technologies applicable to pulp, paper, and allied industries and shared various innovative ideas to ensure future growth and development of the industry. The conference focused on sustainable manufacturing, which involves optimising processes to minimise waste generation and resource consumption while maximising energy efficiency, thus reducing the impact on the environment. It includes the usage of inputs and methods that use less energy as well as fewer hazardous materials, for instance, through recycling, reducing pollution, or implementing less carbon-intensive processes. More than 650 delegates attended the various sessions of the Paperex conference from the pulp, paper, and allied industries. Forty-two speakers from various countries made presentations on the latest technologies in nine sessions, including the general session and the special session of the Paperex Technical Conference. A poster session of the Paperex conference was held on December 9, 2023, where more than 15 speakers made their presentations.

The International Technical Conference of Paperex'2023 started with the Keynote Address and S V Memorial Lecture by Antti Salminen, President, Pulp and Paper Segment, Kemira, Finland. He made a detailed presentation on “Sustainable Chemistry to Fuel the Renewable Fibre Revolution” in the pulp and paper segment of the industry.

Following the keynote address, the panel discussion on “Paper Industry in the Coming Decade: A Futuristic Approach” was conducted, where the icons of the paper and allied industries from India and overseas countries participated and made detailed deliberations with the delegates of the Paperex 2023 conference. Mr. Anil Kumar, Technical Advisor, IARPMA, and former Executive Director and CEO, Shreyans Industries Limited, was the moderator of the panel discussion. The eminent panellists who attended this session, Mr. Pawan Khaitan, Managing Director, Kuantum Papers Ltd., Mr. Rahul Khanna, President, INMA, and Managing Director, Khanna Papers Ltd., Mr. A. S. Mehta, President and Director, JK Paper Ltd., Mr. Santosh Wakhloo, Executive Director, Tamil Nadu Newsprint and Papers Ltd., and Mr. David Powlson, Director, AFRY Management Consulting, UK, shared their views and experiences on future prospects for sustainability and growth in the coming decade in paper and allied industries.

The special session on “Next Gen Investment Opportunities in the Indian Pulp and Paper Industry,” where James Alden, Regional and Investor Engagement, Canopy Planet & Founder, Insekts Nutrition-Canada, Valerie Langer, Fibrer Solutions Strategist, Canopy Planet, and Nishant Gupta, Head of Sustainability, Flipkart Group, made presentations focusing on the emerging international demand for agricultural fibre-based pulp, paper, and packaging industries. The moderator of the session was RHK Singh, President (Works), Bindal Papers Mills Ltd.

Before starting the technical sessions of the Paperex conference, a general session of the conference and exhibition was also organised on the first day, December 6, 2023, covering motivational talks on leadership, the growth of green technologies for paper manufacturing, efficiency in production processes, energy, the environment, and decarbonisation initiatives by the paper industry. The general session consisted of six presentations from eminent policymakers, scientists, economists, technocrats, and project consultants on the above subjects. Vijay Gupta, Asian Pulp and Paper, Gauri Shankar Patnaik, JK Paper Mills, Anup Kansal, Business Transformation and Strategy Consulting, Dr. Nitin Endlay, Central Pulp and Paper Research Institute, Tomas Karlsson, Valmet, and Dr. Ashok Kumar, BEE, Ministry of Power, Govt. of India, made detailed presentations. Mr. Atul Kaul, Chief Commercial Officer, Arab Paper Manufacturing Co. (WARAQ), Saudi Arabia, has chaired the session.

World-renowned scientists, technocrats, and academicians of the paper and allied industries made presentations during the three-day high-profile technical conference from December 6–8, 2023, and the poster session on December 9, 2023.

Technical Session-I was conducted on the subject of “Technological Solutions and Practices for Water Management and Cost Optimisation in the Pulp and Paper Sector.” Three eminent speakers representing UNIDO, FICCI, and Krofta Engineering made presentations in this session. Dr. M. K. Gupta, Director, Central Pulp and Paper Research Institute, India, was the session chairman.

During Technical Session II on the subject “Innovative Green Technologies for Enhanced Quality and Efficiency in Pulping and Paper Making Processes,” six eminent speakers from well-known companies like Kemira, Finland, Parason Machinery, Imerys, Valmet Technologies Inc., and BTG Group, USA, presented papers on green technologies and discussed various developments taking place in pulping and paper-making processes. The moderator of the session was Mr. Kasi Viswanathan, Managing Director, Seshasayee Paper and Boards Ltd., India. He was also the chairman of the Paperex Technical Committee.

Technical Session III addressed emerging technologies, titled "Advancements in Coating Applications to Address Diverse Performance Criteria and Barrier Properties of Paper Products." The session was chaired by Mr. C. S. Kashikar, Chief Operating Officer, Orient Paper and Industries Ltd., India.

Technical Session IV on “Green Technology Strategies for Growth and Sustainability in the Pulp and Paper Sector” consisted of four presentations by eminent speakers from industry, the Biogas Association, and research institutions. Mr. SVR Krishnan, Chief Operating Officer, Khanna Paper Mill Limited, chaired the session.

Eminent speakers from Tamil Nadu Newsprint and Papers Ltd. (TNPL) and the Central Pulp and Paper Research Institute (CPPRI) made presentations in Technical Session-V on “Green Technology Development in Pulp Mill Operation. Chairman of this session was Dr. B. P. Thapliyal, Secretary General, IARPMA, and former Director, CPPRI.

Technical Session-VI has been focused on “Futuristic Developments and Technology Transformation for Sustainability of Pulp and Paper Industry” and consisted of five presentations by eminent speakers from Tietoevry Pulp, Paper, and Fibre Industries, Malaysia, BTG, USA, Canada, and India regions, and Andritz Pumps Germany GmbH, Germany. Dr. Ashok Kumar, Executive Director, Pudumjee Paper Products Ltd., India, was the chairman of this important session.

Technical Session VII has been focused on “Green Technologies for Process Control in the Pulp and Paper Industry,” where two presentations were made by eminent speakers from TNPL and Buckman, Singapore. Dr. J. P. Semwal, a technical expert in the pulp and paper industry and former managing director of Bhrikuti Pulp & Paper Ltd., Nepal, was the session chairman.

A poster session on "Emerging Technologies and Ideas in Paper and Allied Industries" has also been organised on day 4 (9 December 2023) of the conference. This was a special initiative from the Paperex Secretariat to promote and encourage young minds engaged in the fields of research and development in the pulp, paper, and allied industries. The participants were research fellows, young scientists, students, young entrepreneurs, etc.

Mr. Kasi Vishwanathan, Chairman, Paperex 2023 Technical Committee, and MD, Seshasayee Paper and Boards Ltd., summarised the Paperex'23 conference, shared his views and observations of the Technical Committee of Paperex with the delegates and captains of the Indian paper industry, and also presented a road map for the adoption of the latest green technologies to ensure the sustained growth and development of the Indian paper industry.

THE OPEN SEMINAR

on “Paper Printing, Packaging and Converting.”

37+ Key industry speakers & thought leaders

7+ sessions focused on the most relevant & ongoing industry challenges

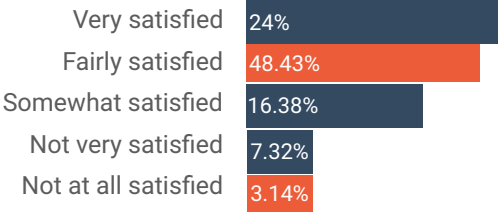

150+ Attending Delegates

Paperex 2023 to showcase the latest in Technology and Product Innovation

Paperex, World's Largest Paper Show, promises to provide a Unified Business Platform for Paper Industry

INDIA'S pulp and paper industry has seen a significant increase in the last few years. Valued at a whopping US\$13.01 Billion in 2022, it is expected to grow at a CAGR of 13.4% in the next decade. The requirement of better-quality packaging products and the demand for other paper products such as tissue paper, filter paper, tea bags, cardboard etc. are expected to drive the market in India in the coming years. Interestingly, the center of the paper industry is also shifting towards more eco-friendly goods and technology.

Known as one of India's oldest and core industrial sectors, the pulp and paper industry is directly contributing to the industrial and economic growth of the country and is thus of great socio-economic importance. The main raw material for the paper industry is a pulp containing cellulose fibre that can be derived from three sources: Wood-based, Non-wood/agro residue-based, Wastepaper/ recycled fibre-based (RCF).

In India, wastepaper account for 45% raw material while agro-residues account for 20-22% for paper making. The wood-based fibre has been on a continuous decline for the past 15-20 years. 90% of demand for wood-based paper in India is met by farm forestry. Almost 78% of cellulose fibre comes from non-wood sources and recycled pulp. 70% of paper mills in India are based on recycled fibre (RCF) given the environmentally friendly nature of the raw material and inadequate availability of other pulp. These numbers indicate the adoption of sustainable production practices within the paper industry.

In this regard, the Paper Industry in India is not a forest-based industry, but an Agro-based industry, providing jobs and income to lakhs of farmers. TNPL, JK Paper and West Coast are the major companies involved in agroforestry.

Writing, printing and Specialty paper market is expected to grow at a CAGR of 6.80% in the next 5 years and caters to office, stationery, notebooks, textbooks, copier paper, etc. The writing and printing grade of paper comprises mainly of uncoated varieties viz. cream wave, maplithe, copier/cut size paper and is mainly produced from wood-based raw materials with a little share from Agro and Recycled fibre.

Newsprint forms 6% of the market. Newsprint sector is reeling under pressure from reduction in import duty from 5-10% even when the actual user condition is in place. This, coupled with aggressive posture due to cheap imports, is expected to decrease Newsprint Production in the times to come.

PAPEREX is a pivotal platform for industry engagement which promises to help the Paper and Allied Industries to reconnect and bring in focus on sustainable production solutions, latest technologies, and efficient manufacturing methods to offset the challenges in new world.

On this backdrop, PAPEREX 2023 is all

set to deliver its 16th edition from 6-9 December 2023, at India Expo Centre, Greater Noida, India. Organised by Hyve India, PAPEREX is "A Unified Business Platform for Paper Industry" for new business opportunities, joint ventures, investments, and technology transfer in paper and allied industries.

PAPEREX 2023 is committed to bring together the paper and board manufacturing industry, inward and outward supply chains. The concurrent technical Conference and Open Seminar at the event bring together the gathering of best minds in Paper, Packaging, Printing and Publishing industries.

The event is being inaugurated by

Global Paper Fraternity converges for Paperex 2023

Paperex, a unified business platform for paper industry, will open today to record participation from global paper industry

WHAT IS PAPER?

- Paper is human innovation and a wonderful product
- There is no replacement of paper for its usage in recording, storage, and dissemination of important information
- The specialty paper provides new printing and packaging options
- The tissue paper gives us unmatched hygiene and comfort
- This is a global myth that paper manufacturers use wood as raw material
- Paper industry is not into blatantly cutting the forests or using the reserved forests
- Only 5% of specific types of trees are used for raw material, while over 95% wood is used for fire

is a growing need for the government to support the industry, which has developed strong backward linkages with the farming community. As opposed to the common

perception, India's paper industry is wood-positive. It generates more jobs than it harvests. —An editorialist writes *Pragati*, 21/11/2023

HIGHLIGHTS OF THE SHOWS

- 600+ leading exhibitors from 24 countries including Australia, Austria, Belgium, Canada, China, Finland, France, Germany, India, Italy, Lebanon, Netherlands, Nigeria, Philippines, Singapore, Slovenia, South Africa, Spain, Sweden, Switzerland, Taiwan, Thailand, United Kingdom and USA
- 25,000+ trade visitors from all over the world
- Conference on paper industry – Growth & Sustainability Through Green Technologies by IAPPIA
- Networking meets of leading trade associations
- Various new launches and programs by exhibitors

production of paper. The growing cost of raw materials and significant cost increase of fuel and other inputs has resulted in a substantial increase in the domestic manufacture of paper and paperboard, making India's paper industry more competitive.

The paper and paperboard unit (including newspaper) imports into India have been steadily increasing, recording a sharp 23 per cent year-on-year

growth in the first quarter of 2023-24. Imports are growing against the increase in domestic production rate with underutilisation of domestic installed capacity. Therefore, while the domestic industry operates under challenging conditions, substantial quantities of paper and paperboard are imported at significantly lower costs under the FTAs. Owing to the lack of adequate raw material in India, there
