THE Paper Industry

The global production of pulp and paper will cross 490 million tons in 2024. A goal of collecting and recycling 55% of all plastic packages has been set by the European Union and is expected to be reached by 2030. This will have a positive impact on the pulp and paper industry. The global paper products market size is expected to grow at a **CAGR of 6.4%** from **\$354.29 billion** in 2022 to **US\$ 372 billion** in 2029. Specialty paper market worldwide is projected to grow by **US\$26.9 billion** by 2033.

THE Indian Paper Industry is the 15th largest paper industry in the world and fastest growing market. India is also the fastest growing market for paper globally and it presents an exciting scenario; paper consumption is poised for a big leap forward in sync with the economic growth. The per capita paper consumption in India at a little over 15 kg, is way behind the global average of 57 kg. The futuristic view is that growth in paper consumption would be in multiples of GDP and hence an increase in consumption by **one kg per capita would lead to an increase in demand of 1 million tonnes**.

Most of the paper mills are in existence for a long time and hence present technologies are in a wide spectrum ranging from oldest to the most modern. The geographical spread of the industry, as well as market, is mainly responsible for the regional balance of production and consumption. Future looks more promising as the domestic demand is on the rise.

THE Growth Indicator

Domestic consumption is projected to rise to

23.5 million tpa and production to **22.0-million** tpa by **2024-25**

The Indian paper & paper products market is expected to grow

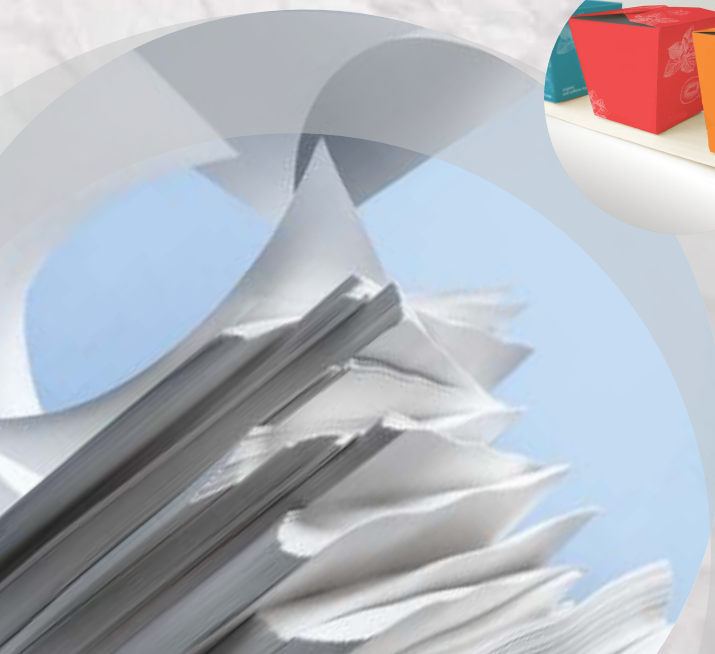

US\$ 16.64 billion by 2028 from US\$ 12.7 billion in 2023

THE Paperex

Paperex is the largest paper industry event in the world, and “A Unified Business Platform for Paper Industry” for new business opportunities, joint ventures, investments, and technology transfer in paper and allied industries. Paperex is the only comprehensive forum promoting overall growth of paper and allied industries.

Paperex is always very well attended by a large gathering of Paper Manufacturers exploring the New Technologies, Machinery, Equipment and Raw Material for Paper & Board Manufacturing. The mass audience of Paper Traders, Printers, Publishers, Converters and Paper Packaging Companies to explore the variety of papers at the show.

The event is committed to break the virtual world and bring together the paper and board manufacturing industry, inward and outward supply chains. The adjoining knowledge forums at the event brings together the gathering of **best minds in Paper, Packaging, Printing and Publishing Industries**.
