Where Industry Meets Innovation

India's paper and packaging sector is experiencing unprecedented transformation, with the overall market poised to reach USD 250-280 billion by 2027. This growth is fueled by sustainability mandates, e-commerce expansion, plastic ban regulations, and rising consumer demand across the value chain. Paperex 2027 is your opportunity to connect with industry leaders, explore cutting-edge technologies, and uncover new opportunities in India's fastest-growing paper, packaging, converting, and tissue sectors.

Indian Paper Industry

India is the fastest-growing paper market globally, with per capita consumption at 14 kg versus the global average of 57 kg. Domestic consumption projected to reach 30 million tonnes per annum by 2026-27.

Paper Packaging Industry

Indian packaging market expected to reach USD 250-280 billion by 2027, growing at 20-24% CAGR, driven by e-commerce and sustainable packaging trends.

Tissue Industry

Market valued at USD 7.3 billion in 2025, projected to reach USD 10.6 billion by 2034. Per capita consumption set to double from 0.18 kg to 0.36 kg by 2030

Paper Converting Industry

Market reached USD 19.07 billion in 2025, projected to grow at 19.48% CAGR to reach USD 46.43 billion by 2030. Corrugated board dominates with 53% market share

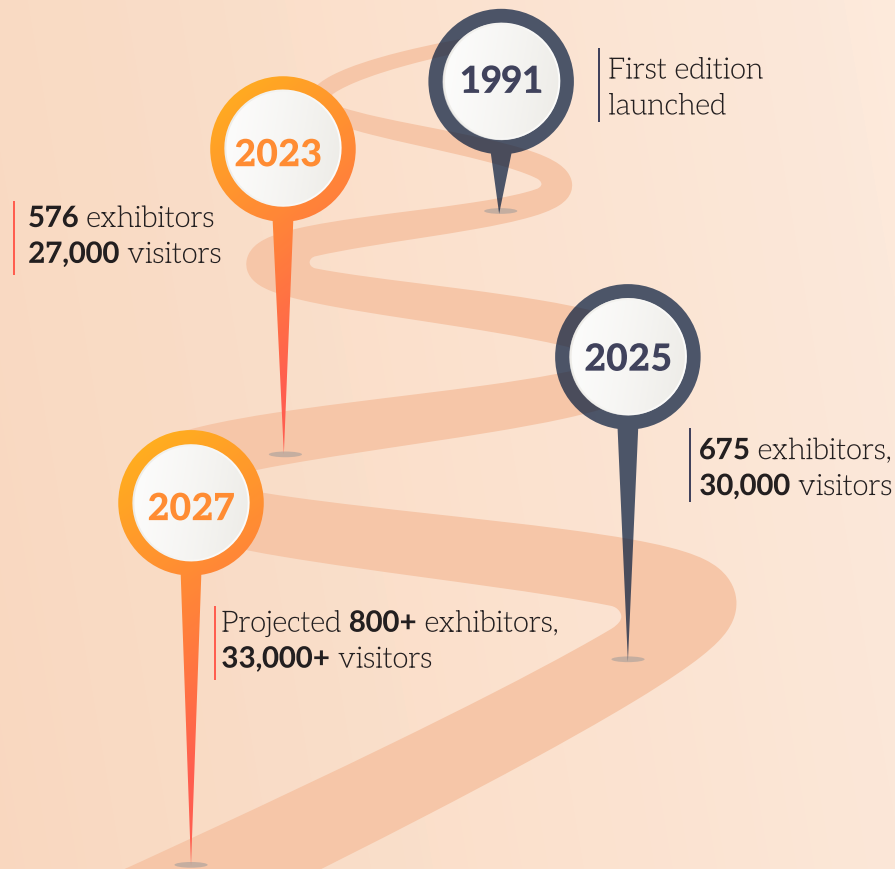

India's Paper Industry Growth in Numbers:

These investments and advancements are creating a dynamic industrial ecosystem where sustainability and innovation go hand in hand.
